## Objective

Newly graduated Software Engineering student from Washington State University as of May 2022 aspiring for a career in Software Engineering, Firmware Engineering or Software Architecture.

## Technology Experience

**Programming Languages:** C/C#, Python, C, SQL, Javascript, CSS, HTML5
**Teaming & Tools:** Git, Github, Visual Studio, Visual Studio Code, Flask, Postgres, Relax, React, Bootstrap
**Operating Systems & Applications:** Linux, Raspbian, Ubuntu, Windows, MS Project, Microsoft Office
**Analytical:** Statistical analysis and data visualization using Python, R & SQL, PMD, JDeoderant

## Education

**Washington State University**                                                                                       Pullman, WA
Bachelor of Science – Software Engineering
with Mathematics Minor

## Software Projects

**Boeing Natural Language Processing**

Ongoing software project collaboration aimed at creating a Taxonomy Service for Boeing. Started with a working noun parser, turning into a fully functioning full stack web application using React JavaScript/CSS/HTML, backend using Python utilizing Flask routes. Aims for containerization using Docker. GitHub used for version control.

**Yelp-Like Full Stack Application**

Full stack application utilizing a JSON parser built using Python, Postgres SQL backend, and a C# XML front end.

## Work Experience

**Gordon Family YMCA**                                                                                                Sumner, WA
Health & Wellbeing Coach
   • Instructed YMCA members on proper health and wellness protocols, use of equipment, and gym safety protocols.

**Washington State University**                                                                                       Pullman, WA
Pullman, WA Martial Arts Instructor
   • Taught challenging beginner Karate, Judo and Self-Defense classes. Delegated teaching tasks to assistants.

**Auburn Parks**                                                                                                       Auburn, WA
Park Maintenance Staff
   • Collaborated with teammates utilizing tools and technologies in order to maintain usability, maintainability, and availability of Auburn parks.
