Leadership & Business Experience

Mentoring	Project Planning & Management
Public Speaking & Presenting	Delegation
Build and Inspire Teams	Technical Writing
Marketing	Problem Solving

Education

Washington State University   Pullman, WA
Bachelor of Science – Software Engineering   May 2022
Bachelor of Science – Kinesiology
with Mathematics Minor

Software Projects

Boeing Natural Language Processing
Ongoing software project collaboration aimed at creating a Taxonomy Service for Boeing. Started with a working noun parser, turning into a fully functioning full stack web application using React JavaScript/CSS/HTML, backend using Python utilizing Flask routes. Aims for containerization using Docker. GitHub used for version control.

Yelp-Like Full Stack Application
Full stack application utilizing a JSON parser built using Python, Postgres SQL backend, and a C# XML front end.

Work Experience

Gordon Family YMCA   Sumner, WA
Health & Wellbeing Coach   Summer 2019

- Instructed YMCA members on proper health and wellness protocols, use of equipment, and gym safety protocols.

Washington State University   Pullman, WA
Martial Arts Instructor   August 2017 – May 2022

- Taught challenging beginner Karate, Judo and Self-Defense classes. Delegated teaching tasks to assistants.

Auburn Parks   Auburn, WA
